Forecast for Friday 09 Jul 2021

Weather: Many ranges will have a dull day with extensive low cloud and some occasional rain or drizzle, perhaps the odd heavier outbreak across the northern Perthshire Hills and into the Glenshee area. Perhaps some brighter spells in the south towards the Ochils.

Chance of cloud free mountain/hill tops above 800m: 10%

Visibility: Rather poor in extensive low cloud down to 400-700 metres. Small chance that low cloud may clear from the far southwest later in the afternoon, but low confidence in this aspect.

Forecast for Saturday 10 Jul 2021
Weather: A cloudy day with some showery rain around in the morning. A few heavy showers may develop more widely in the afternoon, more especially across the west of the area.

Maximum wind: Westerly 10 mph

Chance of cloud free mountain/hill tops above 800m: 50%

Visibility: Poor in extensive low cloud down to 400 metres in the morning, this gradually dissipating by the early afternoon. More northern and eastern ranges will be last to clear.

Temperature: **Glens:** Plus 10 rising to 20 Celsius
At 800m: Plus 12 Celsius
Freezing level: Above summits
